

Balsawood Derby Rules

Participants should design, build and decorate their cars before the Derby. Weight may be added and the car finished with paint and decoration. The cars will be gravity powered as they run on our purpose built sloping track.

Prizes will be awarded based on speed but also design and creativity.

1. All items issued in the kit must be used (wood block, axles, wheels)
2. The car must have 10mm clearance underneath the body.
3. The car must have at least 44mm clearance between the wheels.
4. The cars overall weight must not exceed 140g.
5. Liquid lubricants are not allowed.
6. A race entry number will be displayed on the car during race.
7. The base of the car should be clearly marked with the your name.
8. The car should have no loose parts.
9. Cars must pass an inspection and official weigh in before racing.
10. Good conduct & sportsmanship is expected of all participants.
11. The race organiser and inspection committee's decision is final.
12. The maximum width must not exceed 75mm.
13. The maximum height must not exceed 100mm.
